1. Qualitative information for the second quarter of the fiscal year under review

(1) Explanation of business results

During the second quarter of the consolidated fiscal year under review, although the employment and income environments were robust, the outlook remained unclear due to a slowdown of the economy on a global scale resulting from concerns toward intensified US-China trade friction and the UK's exit from the EU.

In the interior industry, demand in non-residential areas was sustained mainly in urban areas despite a year-on-year decline in housing starts.

In the automotive industry, output in the domestic market has been declining since October compared to the previous year, while demand in overseas markets contracted as the impact of the slowing Chinese market due to the US-China trade friction spread to the European and Asian economies.

In the final year of its 5th three-year medium-term management plan, "2020," the Suminoe Textile Group is implementing various measures to achieve our goals under the themes of "restructuring of corporate governance" and "growth of business."

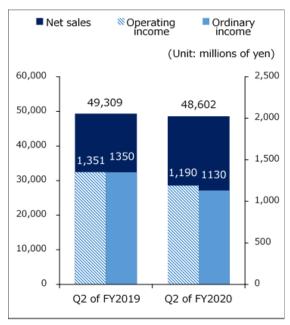

Restructuring of corporate	1. Review of financial results management system		
governance	2. Restructuring internal control system		
	1. Expansion of product lineups		
Growth of business	2. Strengthening of globalization		
	3. Development and sales of high value-added products		

In the Interior Fittings Segment, the Company is actively capturing businesses with hotels and commercial facilities as well as demand from offices on the back of demand driven by inbound tourism and the 2020 Tokyo Olympic and Paralympic Games. At the same time, to secure profits the Company is identifying and focusing on products with higher profitability. The Company is also making efforts to enhance sales of curtains and wall coverings and materials. In the Automotive Textiles and Traffic Facilities Segment, efforts are being made to develop technologies and increase orders received for non-textile products such as artificial leather and to reduce costs through the optimization of material procurement and the places of production for globally marketed cars in the automotive textiles business, while in the traffic facilities business, the Company is striving to increase sales of not only conventional fabric materials but also seat cushion materials and safety products.

In the Functional Materials Segment, preparations are being made to launch a plant in a new subsidiary that was established in Vietnam to stabilize the supply chain, in addition to the sole manufacturing base the Company had in China.

For the entire Group, we are working on reconstructing our core system and raising the accuracy of consolidated performance management, in order to upgrade our business management structure. We will continue working steadily on building a foundation for business growth.

Under these circumstances, our consolidated quarterly results for the second quarter of this fiscal year are as follows.

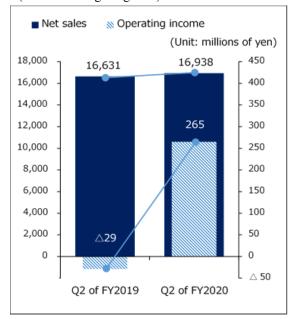

Net sales decreased by 1.4% year on year to 48,602 millions of yen, reflecting a combination of the stagnant automotive-related sales abroad affected by the global economic environment and robust sales in the Interior Fittings Segment and Functional Materials Segment.

Operating income declined by 11.9% year on year to 1,190 millions of yen on the back of a drop in sales and an increase in depreciation related to the restructuring of our core system. Ordinary income declined by 16.2% year on year to 1,130 millions of yen, and profit attributable to owners of parent declined by 3.9% year on year to 474 millions of yen.

The performance by segment is as described below.

	Net sale	es	Operating income		
Segments	Amount (Millions of Yen)	YY Change (%)	Amount (Millions of Yen)	YY Change (%)	
Interior Fittings	16,938	1.8	265	_	
Automotive Textiles and Traffic Facilities	28,824	(3.4)	1,609	(13.1)	
Functional Materials	2,763	0.1	171	(12.3)	
Other	74	4.5	35	(18.0)	
Total	48,602	(1.4)	2,081	1.0	
Adjustment	_	_	(890)	_	
Consolidated	48,602	(1.4)	1,190	(11.9)	

(Interior Fittings Segment)

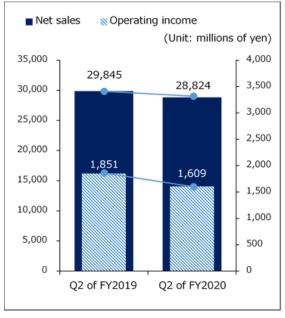

Net sales rose 1.8% year on year to 16,938 millions of yen helped by strong orders for commercial carpets and curtains for office buildings, commercial facilities, and hotels. Despite rising costs of materials and logistics, operating income ended at 265 millions of yen (operating loss of 29 millions of yen in the same period of the previous year) on the back of revised sales prices of products and a focus on products with high margins.

Regarding commercial carpets, overseas exports of carpet tiles contracted, although their domestic sales remained robust due in part to large properties. Sales of roll carpets rose 6% year on year as a result of an increase in orders received for accommodation and commercial facilities in response to inbound tourism-driven demand.

Sales of household carpets shrank 15% year on year as the Company identified and focused on products with higher profitability as it placed importance on profit margins. Sales of curtains grew 10% year on year on the back of the strong sales of *U Life*® *Vol. 9* for general households, and *Face* for medical, welfare, and educational institutions, and the launch of *mode S*® *Vol. 9*.

Sales of wall coverings and materials increased 8% year on year on account of the solid sales of wallpapers and the significant growth in sales of *fusuma* (sliding door) paper due to last-minute demand prior to the tax hike.

(Automotive Textiles and Traffic Facilities Segment)

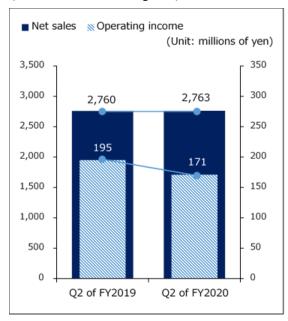

In the traffic facilities business, sales for railways and buses were robust, although automotive-related sales decreased due to the globally weak sales by Japanese car makers. As a result, net sales shrank by 3.4% year on year to 28,824 millions of yen and operating income shrank by 13.1% year on year to 1,609 millions of yen.

Domestic automotive-related sales dropped 3% year on year due to weak sales of car models for which orders had been received. Overseas sales shrank 6% year on year reflecting smaller sales especially in China, India, and Thailand which were attributable to the global decline in automobile production due to the prolonged US-China trade friction.

In the traffic facilities business, there was an increase in orders received from railways and buses, whose introduction of new carriages and periodic repair work plans had returned to normal levels. Non-textile products such as safety products and seat cushion material *SUMICUBE®* also contributed to sales.

(Functional Materials Segment)

Sales of electric carpets, our core, seasonal product, shrank due to the change to their shipment timing to the third quarter on the back of a warm winter. Net sales were unchanged year on year at 2,763 million yen, as orders received for *KEAT*®, yarns for brushes, decreased, while adoption of materials for civil engineering increased.

Operating income declined by 12.3% year on year to 171 millions of yen due to a rise in manufacturing costs such as for trial production.

(2) Explanation of financial position

(i) Financial position

Total assets at the end of the second consolidated accounting quarter under review amounted to 91,692 millions of yen, up 3,716 millions of yen from the end of the previous fiscal year, due to factors such as an increase in leased assets as a result of the application of IFRS 16 Leases and an increase in electronically recorded monetary claims - operating since the last day of the second consolidated accounting quarter under review was a holiday.

Liabilities grew to 56,687 millions of yen, up 3,983 millions of yen, due to factors such as an increase in electronically recorded obligations - operating and an increase in Short-term loans payable.

Net assets shrank to 35,004 millions of yen, down 266 millions of yen, due to drops in shareholders' equity following the share buyback.

(ii) Cash flows

Cash and cash equivalents at the end of second quarter of the consolidated fiscal year amounted to 7,669 millions of yen, down 85 millions of yen from the end of the previous fiscal year. A summary of the cash flow situation is provided as follows:

(Cash flows from operating activities)

Net cash provided by operating activities amounted to 2,408 millions of yen (350 millions of yen used in the same period of the previous year) due to an increase in notes and accounts payable-trade.

(Cash flows from investing activities)

Net cash used in investing activities amounted to 1,335 millions of yen (1,163 millions of yen used in the same period of the previous year) due to purchase of property, plant, and equipment.

(Cash flows from financing activities)

Net cash used in financing activities amounted to 1,076 millions of yen (3,152 millions of yen used in the same period of the previous year) due to the acquisition of treasury shares.

(3) Explanation of future forecast information including forecast of consolidated business results There are no modifications to the forecast for the full year of the fiscal year ending May 31, 2020 announced on July 12, 2019.

(4) Major notes on consolidated quarterly financial statements

(Notes on assumption of going concern)

Not applicable.

(Notes on significant changes in shareholders' equity)

In accordance with the resolution approved at the Board of Directors' meeting held on January 11, 2019, the Company acquired 557,500 treasury shares while disposing of 2,750 treasury shares as restricted stock compensation in accordance with a resolution at the Board of Directors meeting on August 29, 2019. As a result, treasury shares increased 963 millions of yen, including an increase due to acquisition of odd shares, during the second quarter of the fiscal year ending May 31, 2020, and stood at 3,387 millions of yen at the end of the second quarter of the fiscal year ending May 31, 2020.

(Changes in accounting policies)

(Application of IFRS 16 Leases)

As of the beginning of the first consolidated accounting quarter, IFRS 16 Leases was applied to all our overseas consolidated subsidiaries, except for those in the U.S. The Company has adopted a method of recognizing the cumulative impact of the application of IFRS 16 Leases as of the start date of its application, which is permitted as a transitory measure.

As a result, as at the beginning of the first consolidated accounting quarter, Other in Property, Plant and Equipment, Other in Current Liabilities, and Other in Non-current Liabilities had risen by 1,077 millions of yen, 252 millions of yen, and 782 millions of yen, respectively. Their impact on the consolidated statement of income for the second quarter under review is negligible.

(Segment information)

I Q2 of FY2019 (June 1, 2018 to November 30, 2018)

Information on net sales and income or loss by reportable segment

(Unit: millions of yen)

		Reportable	eportable Segments				Figures in consolidated	
	Interior Fittings	Automotive Textiles and Traffic Facilities		Total	Other (Note 1)	Total	Adjustment (Note 2)	
Net sales Net sales to outside customers	16,631	29,845	2,760	49,237	71	49,309	_	49,309
Inter-segment sales and transfers	367	4	1	372	88	460	(460)	_
Total	16,998	29,850	2,761	49,610	159	49,769	(460)	49,309
Segment income (loss)	(29)	1,851	195	2,017	43	2,061	(709)	1,351

- (Note) 1. *Other* represents businesses that are not included in reportable segments, such as the physical property and performance inspection businesses.
 - 2. Adjustment of -709 millions of yen in segment income (loss) includes eliminations among segments of 9 millions of yen and corporate expenses unallocated to relevant reportable segments of -719 millions of yen. Unallocated corporate expenses mainly consist of expenses for the Administrative division and R&D division that do not belong to any reportable segment.
 - 3. Segment income (loss) is adjusted with operating income in consolidated quarterly statement of income.

II Q2 of FY2020 (June 1, 2019 to November 30, 2019)

Information on net sales and income or loss by reportable segment

(Unit: millions of yen)
